

**WHO AND WHAT** ecoWise is a team of motivated energy consultants who guide and support small and medium-sized enterprises in their sustainability transition. Our focus at ecoWise is on energy-efficiency and renewable energy.

We provide advice that's tailored to your business, we take your future plans into account and we also take the first steps towards implementation.

## How we work

- 1** An energy consultant will visit you at your premises.  
  
The interview usually lasts about one and a half hours, depending on the complexity of the topics being addressed.
- 2** Your business operations, energy consumption and future plans will be discussed in detail during this on-site visit. This enables us to work out the energy situation.
- 3** The energy consultant then draws up the advisory report, which takes about three weeks to complete.
- 4** The findings are then discussed when the report is handed over to you.
- 5** Our energy consultant follows up your file and discusses the quotation plan as a potential next step.

## Our advisory report

The advisory report explains your energy management requirements in plain language and prompts you to think about the following questions:

- 1 Where can you save on your energy consumption?
- 2 How can you be energy smart and why?
- 3 What are opportunities for having your own renewable energy

## Our quotation plan

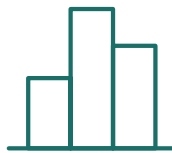

A quotation plan is based on the advisory report, enabling us to take the first steps together towards implementation. We do this by collaborating with our partner 'Impact us today'.

What does the quotation plan entail?

- ▶ You'll receive at least two quotes from the quality partners for each topic
- ▶ These quotes are compared with each other (no choice is made)
- ▶ Where necessary, the payback period, grants, financing, etc. are calculated again
- ▶ An implementation plan is proposed

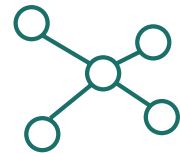

WHAT'S IN  
IT FOR ME?

Insight and know-how  
gained from our energy  
consultants

Lower CO2  
emissions

A network of  
quality partners

Savings on your  
energy bills

Time  
savings

Personalised advice  
for your business
